## A BRIGHTER FUTURE FOR CHILDREN IN CHINA

Many years ago in China, the future for children with disabilities looked dark and hopeless. ICC (International China Concern) has been working for 30 years to bring hope and a brighter future to these children.

We are most grateful that Simon Feng has been a leading donor for ICC and has changed many children's lives. Come and celebrate the appointment of Simon Feng as an ICC Ambassador. Join with Simon and give your financial support to help ICC bring a brighter future to children with disabilities in China.

Special guest speaker is Kyla Alexander, ICC China Operations Director.
